Nida Rathichith

Richardson, TX | 512-801-6552 | nidarzx@gmail.com | Linkedin | github.com/nidarath | https://nida-porfolio.vercel.app/

EDUCATION

Bachelor of Science, Computer Science; Minor in Business Intelligence & Analytics **May 2028**
The University of Texas at Dallas *Richardson, TX*

- **GPA:** 3.45
- **Coursework:** Data Structures & Algorithms, Computer Architecture, Linear Algebra, Database Systems, Computer Networks, Software Engineering

SKILLS

- **Languages**: Python, TypeScript, C++, Java, SQL
- **Frontend Web & Mobile**: React, Next.js, React Native, Tailwind CSS
- **Backend & Data**: Node.js, FastAPI, MongoDB, PostgreSQL, Prisma, REST APIs
- **Developer Tools**: Git, Docker, Visual Studio Code, Postman

EXPERIENCE

Pfizer – Externship (via Extern) **May 2026 - Aug 2026**
AI Extern *Remote*

- Benchmarked 2 OCR engines, Tesseract and PaddleOCR, on digital and scanned pharmaceutical supply-chain documents to compare text-extraction accuracy and processing performance.
- Architected a context-aware **RAG pipeline** using **LlamaIndex**, semantic embeddings, and vector retrieval to classify and retrieve information across **7 pharmaceutical document types**.
- Engineered and evaluated an end-to-end AI document intelligence system across **66 test questions**, achieving **100% exact-match accuracy on 54 answerable questions** and an average response latency of approximately **4 seconds**.

Kids U (via UTDallasEPICS) **Aug 2025 - Dec 2025**
Full Stack Engineer & Mentor Communication Lead *Richardson, TX*

- Developed a secure full-stack authentication system for a donor and volunteer platform, implementing **3 account-security workflows**: 2-Factor Authentication (2FA), email verification, and password recovery.
- **Built and refined 6 core React/Next.js interfaces**, including login, account creation, account settings, email verification, dashboard, and navigation components to support administrative workflows.
- Managed iterative development for a **4-person team** using sprint planning and a Gantt chart, with **weekly internal meetings** and **biweekly stakeholder reviews** to monitor milestones and adjust project requirements.

PROJECTS

GreenGain | Hack-Earth Hackathon Winner: Best Sustainability Impact Award **Feb 2026**

- Built the frontend application utilizing Next.js and React, constructing a scalable library of modular, **reusable UI components** styled with Tailwind CSS to deliver a highly responsive user experience.
- Engineered an interactive, state-driven **tax credit estimator** that algorithmically maps complex IRS Form 5695 logic, dynamically generating personalized roadmaps for sustainable home infrastructure upgrades.
- Rapidly prototyped a visual **CO2 Impact Tracker** under strict hackathon time constraints, delivering a functional dashboard that calculated and displayed the environmental impact of home infrastructure upgrades

Medguide | Node.js, Express.js, MongoDB, Python, React Native **Aug 2025 - Dec 2025**

- Connected **17 REST endpoints** across the mobile application, managing asynchronous API calls and state for user, survey, and follow-up data.
- Designed and implemented the **React Native frontend** across the application, building **user-facing screens**, **navigation flows**, survey interactions, and **state-driven components** to create a cohesive mobile experience.
- Integrated the **Google Maps API** to launch a geolocation-based pharmacy finder, enabling interactive map-based pharmacy discovery for users.

ASCII Visualizer | Python, Pillow **Jan 2026**

- Developed an **image-to-ASCII converter** using Python and Pillow, transforming image pixels into characters based on brightness intensity.
- Implemented **image resizing and grayscale conversion** to preserve visual proportions and generate readable ASCII representations.

EXTRACURRICULAR

Ladies in Tech Mentoring Program | Mentor **Sep 2026 - Present**

- Selected to mentor **2 undergraduate students**, providing guidance on academics, professional development, and campus involvement through recurring check-ins and individualized support.

AIMD | Member / Full-Stack Project Contributor **Sep 2025 - Dec 2025**

Women Mentoring Women in Engineering | Mentee **Sep 2024 - Present**

ACM | Member **Sep 2024 - Dec 2025**
